Exploring Confined Environments with Polymers, Ionic Liquids, and Deep Eutectic Solvents: Predicting Emerging Applications through Modeling and Advanced Experiments

8 – 9 May 2025, Iași

We are excited to invite you to the Training School “Exploring Confined Environments with Polymers, Ionic Liquids, and Deep Eutectic Solvents: Predicting Emerging Applications through Modeling and Advanced Experiments”, taking place in Iași, Romania, on 8 – 9 May 2025.

The event is organized by Gheorghe Asachi Technical University of Iasi, under the **COST COSY Action** and will provide a unique opportunity to enhance your knowledge and research skills in the field of ionic liquids and polymer science.

Why Attend?

- ✓ Gain insights from leading experts in the field
- ✓ Participate in hands-on sessions and discussions on cutting-edge research
- ✓ Expand your professional network with peers from across Europe
- ✓ Explore applications of ionic liquids in polymer chemistry, sustainability, and material innovation

This training school is ideal for researchers interested in the theoretical concepts, alongside methods for simulation and experimental investigation of polymers, ionic liquids and deep eutectic solvents, as well as their applications.

Through the Poster Session, the participants will have the opportunity to present their work and receive feedback.

How to Apply

 Visit our website for details and registration: <https://iasi-ts-il-des-pol.cost-cosy.eu>

 Application deadline: 8th March 2025
